How Chick's Choppery turned \$119.00 a month into \$79,200.00 a year.

by Jay Siff, CEO, MOVING TARGETS

Ask to be judged by only one standard: How much money are we adding to our advertiser's bottom line? By that definition, the success enjoyed by Chick's Choppery (an alias used to assure their financial confidentiality) is huge. But in case you have any doubts, I'll let the figures speak for themselves.

Their average monthly cost: \$119 for MOVING TARGETS mailings and, based on a redemption rate of slightly less than 20%, about \$136 to cover actual food costs—a total of \$255. Redemptions yield about 6–7 actual customers every month with an average “active life” of 55–60 months.

At a \$20-a-month average gross profit per active customer, the total profit over five years is at least \$6,600.00 derived from every month's mailing. That's an astounding \$79,200.00 a year!

I hope these hard numbers will persuade you to let us set up a short-term test for your firm. We make getting started real easy. Because there's no red tape, no hidden charges, no setup or discontinuation fees. At MOVING TARGETS, there's not even a minimum order!

If you'll be good enough to telephone us toll-free at 800-926-2451, we'll give you the names, addresses—and current phone numbers—of 101 actual users.

Live people you can call and ask how good MOVING TARGETS really is. We'll also send a portfolio of free samples, with full details and ordering information.
